

## Planning a trip to a National Park?

**Better leave now because after March 1, 2013 employees could be furloughed which means:\***

- **Reductions in visitor services at National Parks.**
- **Reductions in Park hours of operation.**
- **Possible closure of certain park areas when there is insufficient staff to ensure the protection of visitors and employees.**
- **Possible closure of campgrounds and less access for visitors.**
- **Possible deterioration to our National Parks due to cuts in funding for maintenance.**

**\*Information gleaned from Department of Interior sequestration planning memorandum**

**Across-the-board cuts to domestic spending are NOT the answer!**
