## **Veterans' Day is to honor our veterans both active and retired....**

### **Do it now because after January 2, 2013:**

- The reduction to Operations and Maintenance accounts will severely adversely impact resources for housing, training and equipping our troops.**
- Base Operations Support would be reduced by \$2.4 billion.**
- Facilities Sustainment, Renovation and Modernization would be reduced by \$1.1 billion.**
- Readiness training would be reduced by \$2.9 billion.**
- Training and Recruiting would be reduced by \$1.3 billion.**
- Depot Maintenance would be reduced by \$1.6 billion.**
- The Defense Health Program would be reduced by \$3.7 billion. In addition, funding would be reduced for psychological health, traumatic brain injury and for suicide prevention activities.**

**Nonsensical across-the-board cuts to spending are NOT the answer!**
